Island Energy Plug-in electric vehicle charger rebate program instructions

Island Energy is offering rebates to customers who install Level 2 (240-Volt) plug-in electric vehicle (EV) chargers at their residences or businesses. Through this program, Island Energy will reimburse customers out-of-pocket eligible expenses up to \$750. Eligible expenses include the charger purchase price, installation costs and City of Vallejo's permit application fees related to the installation of the EV charger. To be eligible for the program, customer must own or lease a vehicle with a manufacturer estimate range in excess of 30 miles per charge.

Program Eligibility

- Applicant must receive electric service from Island Energy on Mare Island, Vallejo.
- Vehicle must be registered at the customer address and have a manufacturer's estimated range in excess of 30 miles.
- The EV charger must be installed within Island Energy's service area.
- Applicant must submit application with required documents to be eligible for a rebate.

Rebate Program Steps:

- Obtain a permit for the installation of your new charger at Vallejo City Hall, 555 Santa Clara Street, Vallejo.
- Install your new EV charges.
- Fill out the Plug-In Vehicle Charger Rebate Program Application and submit the completed application along with all supporting document to Island Energy by regular or electronic mail. Supporting documents must in the following:
 1. Copies of charging station purchase and installation receipts.
 2. A copy of your Building Permit Card showing final sign off by the Building & Safety Department of the City of Vallejo.
 3. A copy of your vehicle registration.
